About the University

Established in 1852, University of Madras is one of the oldest and premier Universities in India, which has celebrated its sesquicentennial in 2002. It is the mother of almost all the old Universities of south India. University of Madras has stood out as a beacon of knowledge for generations. It has distinguished itself by preserving equally its ancient heritage and modern developments. The University of Madras is working today as a Arts and Science University, which has 60 teaching and research Departments to offer a total of 200 programmes covering languages, humanities, social sciences, sciences and basic medical sciences. It has four campuses i.e. Chetpet, Marina, Guindy and Tenkasi.

About the Centre for Advanced Studies in Botany

The University Botany Laboratory (UBL) was established in 1920 and acquired the CAS status from the UGC in 1984 and retaining the status for more than 20 consecutive years. The CAS in Botany is well known for its pioneering research contribution on Plant Pathology, Mycology and Algalogy. The Centre has also contributed extensively on the medicinal plants and herbal drugs. Eminent Professors like M.C.P. Iyengar, T.B. Sadasivan, C.V. Subramanian, T.V. Desikachary, A. Mahadevan, J. Lalithakumari, N. Anand and B. Rangaswamy have served as Directors of this Centre. Prof. N. Ramesan is the current Director. CAS in Botany is fully equipped with all necessary laboratory facilities and other infrastructure.

About the SMP

Society for Conservation and Development of Medicinal Plants (SMP), New Delhi, India, has been functioning to create a forum at international level for bringing together individuals and organizations involved in medicinal plants by organizing conferences, symposia and workshops and helping to the exchange of knowledge to different stakeholders. It explores new areas in Medicinal Plant Research. SMP constantly interacts with government agencies, scientific organization and NGOs to promote and protect interests of Medicinal crop growers and producers. It publishes one international journal "Medicinal Plants" and "Asian Herbal Show Newsletter".

About the Conference

In the pharmaceutical pipeline era, with decreasing natural resources, medicinal is experimenting the efficacy of drugs against diseases and their diseases with limited drugs for the management. Moreover, the chemical way of drug making creates favorable environmental and health hazards. In this context, the medicinal plants and herbal drugs are considered as promising candidates to combat new and older diseases. This International Conference on Medicinal Plants and Herbal Drugs for Human Welfare aims to focus on the trend in the bioprospecting of medicinal plants for making herbal drugs.

- Taxonomy of medicinal plants
- Validation of traditional knowledge on herbal medicines
- Chemistry of medicinal plants
- Biotechnology of medicinal plants
- Bioprospecting of medicinal plants for herbal drugs
- Bioactive lead molecules from medicinal plants
- Commercialization of herbal drugs
- Challenges and prospects in herbal drugs
- IPR and herbal drugs
